

## IMPORANT NOTICE

## Revised Credit Card Payment Process and Fees

Starting April 7, 2014, the Texas Department of Motor Vehicles (TxDMV) will process credit card payments for Motor Carrier size and weight permits and temporary registrations through the Texas.gov system, the official website for the State of Texas. State law requires the use of this system.

Texas Permitting and Routing Optimization System (TxPROS) will process online credit card payments through Texas.gov. TxPROS is used to process all oversize/overweight permits, including those submitted by phone, mail or fax.

- Texas.gov will add an additional fee of 25 cents plus 2.25 percent of the total to cover Texas.gov processing costs and credit card company fees.
- Previously customers were charged a flat rate fee of \$1 for credit card transactions, which did not cover the full costs to provide the service.
- The TxDMV will not retain any funds from the added processing fees.
